

# Who said SharePoint® needs to be plain vanilla?

Add some flavor to your customer portals, intranets, and even public websites.

**Get the whole sundae: award-winning design, robust customization, and the built-in power of SharePoint.**

Northridge Systems, a Microsoft Gold Certified Partner with seven Microsoft Competencies, has over nine years of experience developing and implementing solutions for clients on the Microsoft platform, with deep expertise in Microsoft SharePoint and Microsoft .NET technologies. Northridge Interactive, the interactive marketing and design division of Northridge Systems, brings over eight years of experience providing clients with user experience design that maximizes branding impact for internal, external and partner target audiences. The blend of offerings from Northridge Systems and Northridge Interactive creates a truly unique end-to-end value proposition for clients seeking customized Microsoft SharePoint solutions layered with attractive, branded designs that ensure successful end-user adoption.
